

# Marcus Chen

Data Analyst · Product

Barcelona, Spain

## SKILLS

- SQL (advanced)
- Python: pandas, numpy, statsmodels
- Causal inference: DiD, propensity scores
- Tableau, Mode
- Git, dbt basics

Five years on product analytics teams. Comfortable owning a question end to end, from the SQL to the readout.

## EXPERIENCE

### Fluvia · Data Analyst · 2022-2026

B2B SaaS

- Designed and analysed 60+ experiments on activation and onboarding.
- Built the self-serve metrics layer that removed roughly 30 ad-hoc requests per week from the team.
- Applied difference-in-differences to measure a pricing change where a clean randomised test was not possible.

### Orbita Labs · Junior Data Analyst · 2021-2022

Mobility

- Daily operational reporting in SQL and Tableau.

## EDUCATION

BSc Economics, Universitat Pompeu Fabra
